This Directory is the property of THE BELL TELEPHONE COMPANY OF CANADA, LIMITED. It is printed for the exclusive use of the Company's patrons and is loaned to its subscribers. All persons are cautioned against reproducing its contents.

1 C Copyright, Canada, 1917, by THE BELL TELEPHONE COMPANY OF CANADA, LIMITED.

To Telephone Subscribers and the Public.

All employees of the Bell Telephone Company of Canada, whose duties require them to enter the premises of subscribers or others, are required to wear a badge similar to the accompanying illustration. The public is hereby notified to require all persons who desire to enter their buildings or premises for purposes in connection with the Telephone, to exhibit their badges and note the numbers of the same. Any person claiming to be an employee of the Company who is without this badge should be refused admission, and the Manager be notified at once by telephone.

This Company's Tariffs of Local and Long Distance Telephone Tolls are open to inspection and may be seen upon application to the Manager at the Company's Central Exchange. The joint tariffs of international tolls for conversations with points in the United States are open to inspection and may be seen upon application at the Head Office of the Company, in the City of Montreal, or to the Company's Manager at the Block Centre for any locality, the name of which Centre will be furnished by the Manager of the local exchange.

RULES AND REGULATIONS.

The right of the Subscriber is to use the instruments and connecting lines where the Company may place them, under such rules as the Company may from time to time prescribe. He shall not extend their use to other individuals, except his servants upon his business; nor shall they be used for any tolls or consideration to be paid by any person other than the Subscriber; nor does this confer on him the right to use the instrument of another subscriber.

A Subscriber is not allowed to remove or otherwise interfere with the wire connections or parts of any Telephone apparatus leased from this Company.

The Company does not permit any appliances not furnished by it to be attached to its telephone apparatus. It has been found that such attachments often cause trouble and are of no real advantage.

Moving of Instruments.—The Telephone is first placed by the Company where the Subscriber directs. If later, the Subscriber requires the instrument moved, such removal will be done by the Company at the expense of the Subscriber. Subscribers wishing their instruments moved are asked to advise our Local Manager in writing, giving (1) Telephone number (2) Present location of instrument (3) Desired new location (4) When removal is to be made.

No profane or obscene language will be tolerated over the lines of the Company, and the Company reserves the right to remove the lines and instrument without notice for any violation of this rule.

INSTRUCTIONS.

Look up in the Latest Directory the Number of the person to whom you wish to talk, and call the operator by lifting the receiver from the hook or, if the instrument has a generator and crank, by giving the crank one short turn.

When the Operator Replies by saying "Number?" give your order slowly and distinctly. First, name the exchange desired, and then pronounce the number by digits. For example: "Main 416r2" should be pronounced "Main, four-one-six, ring two," rather than "Main, four-sixteen-two," in order to prevent misunderstandings. "Main 446-J" should be pronounced "Main, four-four-six J" and not "Main double four six ring J."

When the Operator Repeats be sure she has received the order correctly.

If the Desired Line is Found in Use, the Operator will report, "The line is busy."

If the Person You are Calling Fails to Answer within a reasonable time, the operator will report, "(called number) does not answer."

When Through Talking, replace the receiver on the hook with the large end downwards. If your telephone is equipped with a bell crank, be sure to give this crank one short turn. This recalls the operator, who, hearing no one talking, will disconnect and thus permit the use of your line for other calls.

If You Wish to Attract the Operator's Attention, at any time during a connection, and your instrument is not equipped with a bell crank, **Move the Hook Slowly Up and Down Five or Six Times,** or until the operator answers. **Don't Move the Hook Rapidly,** as a rapid movement fails to give the desired signal. If your telephone is equipped with a bell crank, give one short ring.

In Answering a Call, time will be saved, if, instead of saying "Hello," you state your own number or name, as: "This is Main 7640," or, "This is John Smith & Co." When called, do not remove the receiver from the hook until the bell stops ringing.

When holding a line never replace the receiver on the hook as this may give the operator a signal to disconnect.

In Case a Conversation is Cut off Before Completion, the Subscriber who was CALLED should immediately hang the receiver on the hook and wait. This will enable the CALLING Subscriber to call again. If the CALLED Subscriber leaves the receiver off the hook the line will be reported busy to the CALLING Subscriber.

Answer the calls on your bell promptly.

Face the transmitter with the mouth about one inch from the opening. Speak naturally, distinctly, and not too rapidly.

Do not use the Telephone during a thunderstorm.

Numbers.—Subscribers are requested not to advertise Telephone Numbers, but simply the words "Telephone Connection," as it may be necessary to change such Numbers.

COMPLAINTS regarding inattention on the part of employees of the Company, or of interruptions to Exchange Service should be made to the Trouble Department (no number necessary). If not promptly attended to, complaint should be made to the **Manager.** If the matter is not then satisfactorily arranged, subscribers at offices west of Kingston should send notice to the **Division Manager at Toronto,** and those at offices east of Kingston, to the **Division Manager at Montreal.**

The Company desires that all subscribers shall be so listed in its Telephone Directory as to ensure efficient service. Errors or omissions should be promptly reported to the Manager. The Company assumes no liability whatever for damages accruing from such errors or omissions.

☞ **RETURN PREVIOUS ISSUES OF THE TELEPHONE DIRECTORY.**

PARTY LINE COURTESY.

To make party line telephone service efficient, and to prevent annoyance to the subscribers on the same circuit, the following rules must be observed:—

1. Answer only your own signal. If there is any confusion about the rings, report the fact promptly to the Chief Operator.
2. When you wish to call, remove the receiver and listen. If the line is in use restore the receiver immediately to the hook and wait for those using the line to finish.
3. Do not allow the servants, children or others to listen on the line when it is in use, or to play with the telephone at any time.

Please remember that the other subscribers on the line have equal rights with you, and that parties on the same telephone line should be as courteous to each other over the wire as when they meet face to face.

Party line service is satisfactory when the above rules are observed.

Long Distance Service.

Direct Telephone communication can be had with all the principal cities, towns and villages in the Provinces of Quebec and Ontario and the United States, within a radius of one thousand miles.

RULES AND REGULATIONS.

TO MAKE A LONG DISTANCE CALL.—Call the local operator in the regular way and ask for "Long Distance." When the Long Distance operator answers, give her the telephone number from which the call is made, the name of the person making the call, the number of the telephone desired (if known), the City or Town and the Province or State. If a particular person is desired, give his name. If the number of the telephone desired is not known, give the firm name or the name and initials of the person under whose name the telephone is listed, and, if possible, the street address.

MESSENGER CALLS.—If the person desired is not connected by telephone, a messenger will be sent to his address to request him to come to a telephone provided the party calling guarantees payment of the messenger service. The exact amount disbursed for messenger service will be charged in addition to the Company's tariff rates.

APPOINTMENT CALLS.—Appointment to talk at a specified time may be made by notifying the long distance operator of the time at which the connection is desired. No extra charge will be made for appointment calls (except for messenger service when such service is involved), but the Company cannot guarantee the completion of the connection at the exact time specified.

An appointment made during day hours for conversation at night will be charged for at day rate.

COLLECT CALLS.—The charges on a long distance call, and messenger charges, may be made against the telephone called, provided the charges are accepted by the party called, and the messenger charge guaranteed by the party calling. Request to have the charges collected from the telephone called should be made when the call is given to the long distance operator.

LEAVE WORD CALLS.—If the person with whom you wish to talk is not immediately reached at the telephone called, word may be left (without charges) to have him call when ready to talk.

REPORTS.—In case delay is encountered in completing a call, the long distance operator will advise the person calling, at reasonable intervals, regarding the cause of the delay. If a report is desired, call the long distance operator and ask her for information required.

RATES AND CHARGES.—Rates for long distance service are based upon an initial period of three minutes; and the three-minute rate will be charged for connections not exceeding three minutes. For overtime, beyond the initial period of three minutes, charge will be made by the minute for each additional minute or fractional part thereof. The long distance operator will not interrupt conversation to notify subscribers of the expiration of the first three minutes.

Special night rates for the Bell Telephone Co. of Canada's lines are available between 6 p.m. and 6 a.m. These are about one-half the day rate, in no case, being less than 25 cents. Where the day rate is 25 cents or less, the rate for service during day or night is the same.

When a particular person is asked for, every reasonable effort will be made to establish the connection with the person desired.

An information charge will be made if information is given as to the whereabouts of the party called, provided the call is not completed and for the third and each subsequent attempt to locate the party at different places.

When no particular person is asked for at the time the call is given to the long distance operator, charge will be made if connection with the telephone number is established.

REQUESTS FOR CHARGES.—If a patron desires notification of the amount of the charge on his message, he will save time by so advising the operator at the time he gives his call. If the request for such information is not made until the completion of the conversation, unavoidable delay results, while the operator obtains the rate and computes the charge.

SUPERVISION BY PRIVATE BRANCH EXCHANGE OPERATORS.—The long distance operator is held responsible for the supervision and timing of all messages and for the character of the service furnished. Supervision of connections by Private-Branch Exchange Operators interferes with the service and such operators should not remain "cut in" on the line after the connection has been established.

SLOT MACHINE PAY STATION SERVICE.—Slot Machine Telephones have been installed by the Company, for the convenience of Subscribers and the General Public, in suitable locations throughout the City.

Local conversations may be had from these Telephones at a charge of 5 cents for 5 minutes.

Long Distance service is furnished at regular tariff rates upon deposit of the amount of the initial charge (covering three minutes' conversation), the usual charges being made for excess time.

All rates are subject to change without notice.

REPORT ALL COMPLAINTS OF LONG DISTANCE SERVICE TO THE "LONG DISTANCE CHIEF OPERATOR."

THE BELL TELEPHONE CO. OF CANADA.

Long Distance

Remember—our lines reach practically all cities, towns and villages, and through our connecting arrangements with 675 independent telephone systems throughout Ontario and Quebec, there are few rural communities that you cannot reach ***by telephone.***

To make a Long Distance call, ask the operator for ***"Long Distance."***

When ***"Long Distance"*** answers, give her

FIRST—The number of the telephone ***from which you are speaking,*** as "Number 114."

SECOND—Your name—"Mr. Rice."

THIRD—The city or town, telephone number (if you know it) and

FOURTH—Name of the party you want.

Give ***"Long Distance"*** full information to aid her in locating the right man. For example, if you want R. K. Smith at Toronto, and you know he is a partner in a firm there, tell ***"Long Distance"*** to get you R. K. Smith of Smith & Brown, Coal Dealers, Toronto. This complete information will avoid error and speed up the service.

After placing a ***"Long Distance"*** call, be ready to answer when your party is reached.

If the person you want is not in when you call, the operator will so advise you and if you wish it, will leave word for ***him*** to call when he returns.

After placing a ***"Long Distance"*** call, endeavor to defer using your telephone for local calls until your Long Distance conversation is completed, or a report received from the operator on it.

When you are called by a distant office and are not in or not ready to speak, the operator leaves word "Please have him call ***Springville*** operator." In such cases, when you return and are ready to talk, be sure to give the name of the distant office reported as calling you. You should say, for example, to your Long Distance operator, "***Springville*** was calling me; I am ready now!"

Speak distinctly ***into the mouthpiece*** of your telephone.

The Bell Telephone Co.
of Canada.

Reach Out By Telephone!

In addition to the telephones of our own system numbering two hundred and fifty-nine thousand, our Long Distance lines serve ninety thousand subscribers of independent connecting companies. Six hundred and seventy-five companies whose systems are spread over Ontario and Quebec have arrangements with us for interchange of communication.

There are therefore few hamlets or rural localities that may not be reached by telephone.

Reach out—by telephone.

The Bell Telephone Co. of Canada

Telephone Attachments

TELEPHONE attachments are frequently purchased by subscribers under the impression that their service will be improved. Generally, they are a positive detriment and a frequent cause of trouble. Rubber ear pieces, for example, do not augment the sound, but do prevent the telephone from hanging properly on the switch hook. Telephone instruments, which are necessarily very sensitive and intricate, have been designed to produce the best results as they are.

Instruments do not become unsanitary, but should be kept clean by the use of a damp cloth. Special disinfectant appliances are unnecessary, and usually seriously impair the transmission.

Subscribers, are, therefore, in their own interest, warned against purchasing attachments, and attention is called to the clause in the contract which provides that **"no electrical or mechanical attachments are to be made to the telephones and lines which are the property of the Company, without its consent."** This provision is necessary in the interest of the general service, and for the same reason the Company must remove attachments which have been made without its authority.

ACTINOLITE.

Public Station, WM. SPECK,—for Subscribers see Tweed.

ACHILL,—for Subscribers see Beeton Telephone Co., Alliston, Beeton, Bradford, Cookstown & Tottenham.

ADDINGTON,—for Subscribers see Tamworth.

Don't Say "Hello!"

INSTEAD, answer the call by giving your name. For example, say:—

"Mr. Watson speaking," or
"Walters & Company—Mr. Hampson speaking."

¶ The person at the other end of the line, upon hearing *your* name, knows he has the right party and immediately answers with *his* name.

¶ Thus the conversation begins right away without that waste of time in saying "Hello" and having the other party ask "Is that So-and-So?" "What number is this?" or "Who is speaking?"

¶ Try this plan of *always announcing your name* upon first coming to the telephone. Soon you will not want to go back to the old-fashioned and unbusinesslike method of saying "Hello."

"Good service .... our true intent."

The Bell Telephone Co. of Canada
